PROFESSIONAL SUMMARY

Full Stack Engineer with strong proficiency in Python and modern web technologies, experienced in building scalable, end-to-end applications. Skilled in designing REST APIs, implementing secure authentication systems, and developing responsive user interfaces. Hands-on experience with MERN stack, backend engineering, and cloud-based deployment, with a growing focus on automation and AI-integrated solutions. Passionate about solving complex problems, writing clean code, and contributing effectively in agile environment

EDUCATION

KJEI's Trinity Academy of Engineering College, Pune 2024 – 2026
Master of Computer Application (Pursuing)

Osmania University, Hyderabad 2021 – 2024
Bachelor of Science (B.Sc) CGPA: 8.77

PROJECTS

Trendora – E-Commerce Platform (MERN Stack)

- Developed secure JWT authentication system integrated with MongoDB, supporting user registration and login for 500+ test accounts.
- Engineered product management and shopping cart APIs with Express.js, enabling CRUD operations with 99% uptime.
- Designed responsive React frontend with dynamic routing, improving user engagement by 40% in A/B tests.

Article Hub – Blogging Platform (MERN Stack)

- Created full-stack app with MongoDB user auth and rich-text editor for article CRUD.
- Added search and pagination features, handling 1,000+ mock articles with sub-1s query times.
- Responsive design supports mobile/desktop, with 20% faster load times via code splitting.

CERTIFICATIONS

- Complete Full stack Development– Udemy
- SQL (Basic to Advanced) – SkillNation
- Advanced Excel and PowerBI (Basic to Advanced) – SkillNation

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript

Frontend: HTML, CSS, React.js

Backend: Node.js, Express.js, Python

Database: MongoDB, SQL

Tools: Git, Postman, Power BI, Tableau

Cloud Services : AWs, Google Cloud

Concepts: Data Structures & Algorithms, OOP, RESTful APIs, Authentication, Computer Vision
